

Savienojums 1  
BSP ārējā vītne, cilindriska  
Savienojums 2  
Šļūtenes savienojums  
Materiāls  
Misiņš

## Produkts

| Apzīmējums | Savienojošās vītnes | Šļūtenes ID | SW<br>mm | Ekspluatācijas spiediens bar |
|------------|---------------------|-------------|----------|------------------------------|
| T 184 M    | G 1/8" -28          | 4           | 14       | PN 16                        |
| T 186 M    | G 1/8" -28          | 6           | 14       | PN 16                        |
| T 189 M    | G 1/8" -28          | 9           | 14       | PN 16                        |
| T 144 M    | G 1/4" -19          | 4           | 17       | PN 16                        |
| T 146 M    | G 1/4" -19          | 6           | 17       | PN 16                        |
| T 149 M    | G 1/4" -19          | 9           | 17       | PN 16                        |
| T 1413 M   | G 1/4" -19          | 13          | 17       | PN 16                        |
| T 386 M    | G 3/8" -19          | 6           | 19       | PN 16                        |
| T 389 M    | G 3/8" -19          | 9           | 19       | PN 16                        |
| T 3813 M   | G 3/8" -19          | 13          | 19       | PN 16                        |
| T 126 M    | G 1/2" -14          | 6           | 24       | PN 16                        |
| T 129 M    | G 1/2" -14          | 9           | 24       | PN 16                        |
| T 1213 M   | G 1/2" -14          | 13          | 24       | PN 16                        |
| T 1219 M   | G 1/2" -14          | 19          | 24       | PN 16                        |
| T 349 M    | G 3/4" -14          | 9           | 27       | PN 16                        |
| T 3413 M   | G 3/4" -14          | 13          | 32       | PN 16                        |
| T 3419 M   | G 3/4" -14          | 19          | 32       | PN 16                        |
| T 1019 M   | G 1" -11            | 19          | 26       | PN 16                        |
| T 1025 M   | G 1" -11            | 25          | 38       | PN 16                        |
